

FLEXLINE CORNER 3030 S

NGA3030S1

SPECIFICATION SHEET

PRODUCT DESCRIPTION

A surface-mounted corner aluminium profile designed for 45° LED presentation in wall-to-ceiling junctions. Its squared diffuser delivers even, directional illumination across adjacent surfaces, making it suitable for both ambient and accent lighting applications. The larger housing accommodates wider LED strips or higher outputs where required.

PRODUCT NOTES

- When selecting an LED strip for this profile, we recommend a minimum LED density of 120 LEDs/m to achieve homogeneous, dot-free illumination, depending on diffuser type.
- A minimum of 1 LED strip runs per metre is recommended to ensure uniform light distribution and eliminate shadowing.
- Diffuser light transmittance: Milky 65–70%, Opal 75%, Frost 85–90%, Clear 95%.
