SPECIFICATION SHEET

## PRODUCT DESCRIPTION

A trimless aluminium profile in mill finish (non-anodized), designed for seamless integration into plasterboard ceilings and walls. Ideal for residential and commercial interiors, it provides indirect, low-glare illumination for architectural features and vertical surfaces where a clean, continuous aesthetic is desired.

## PRODUCT NOTES

- When selecting an LED strip for this profile, we recommend a minimum LED density of 120 LEDs/m to achieve homogeneous, dot-free illumination, depending on diffuser type.
- A minimum of 1 LED strip runs per metre is recommended to ensure uniform light distribution and eliminate shadowing.
- Diffuser light transmittance: Opal 63%, Milky 75%, Frost 89%, Clear 95%.
