

FLEXLINE SURFACE 0806

NGA0806

SPECIFICATION SHEET

PRODUCT DESCRIPTION

A compact surface-mounted aluminium profile featuring a 70° beam angle, designed for ultra-discreet linear lighting applications. Its shallow depth and narrow width make it ideal for installations in tight spaces such as cabinetry, shelving, or display cases where subtle illumination is desired.

PRODUCT NOTES

- When selecting an LED strip for this profile, we recommend a minimum LED density of 240 LEDs/m to achieve homogeneous, dot-free illumination, depending on diffuser type.
- A minimum of 1 LED strip runs per metre is recommended to ensure uniform light distribution and eliminate shadowing.
- Diffuser light transmittance: Opal 63%, Clear 95%.
