

FLEXLINE SURFACE 1707

NGA1707

SPECIFICATION SHEET

PRODUCT DESCRIPTION

A surface-mounted aluminium profile designed for linear lighting applications on ceilings and architectural surfaces. The curved diffuser softens the beam and helps reduce visible LED points, delivering smooth, even illumination. Its shallow form offers a discreet surface presence, ideal for residential or commercial interiors seeking a clean lighting finish.

PRODUCT NOTES

- When selecting an LED strip for this profile, we recommend a minimum LED density of 240 LEDs/m to achieve homogeneous, dot-free illumination, depending on diffuser type.
- A minimum of 1 LED strip runs per metre is recommended to ensure uniform light distribution and eliminate shadowing.
- Diffuser light transmittance: Milky 65–70%, Opal 75%, Frost 85–90%, Clear 95%.
