

FLEXLINE SUSPENDED CORNER 3030 R

NGA3030R2

SPECIFICATION SHEET

PRODUCT DESCRIPTION

A suspended corner aluminium profile designed to house LED strips at a 45° angle, delivering focused downward illumination with smooth light distribution. The curved diffuser enhances spread and softens the output for a clean ambient effect. The profile can also be surface mounted when suspension is not required, making it suitable for both general and decorative lighting in interior spaces.

PRODUCT NOTES

- When selecting an LED strip for this profile, we recommend a minimum LED density of 120 LEDs/m to achieve homogeneous, dot-free illumination, depending on diffuser type.
- A minimum of 1 LED strip runs per metre is recommended to ensure uniform light distribution and eliminate shadowing.
- Diffuser light transmittance: Milky 65–70%, Opal 75%, Frost 85–90%, Clear 95%.
